---

Product-minded UX strategist specializing in complex B2B SaaS experiences, AI-ready workflows, and systems-level UX strategy. Experienced leading cross-functional initiatives that improved activation, reduced time-to-value, scaled UX quality operations, and translated customer insight into measurable product and experience improvements.

## PROFESSIONAL EXPERIENCE

---

### CLOUDFLARE

JULY 2022-MAY 2026

#### Lead UX Content Strategist

*(Previous: Senior UX Content Strategist, UX Content Strategist, UX Content Designer)*

Led UX strategy for complex Zero Trust and enterprise workflows across the Cloudflare One suite, partnering with product, engineering, design, analytics, support, and technical writing to improve usability, discoverability, and cross-product consistency at scale.

- Reframed the Zero Trust dashboard around user goals instead of internal product structures, aligning 30+ stakeholders and improving discoverability across the platform.
- Led content-first product initiatives using a “content as a product” approach, including introducing the Zero Trust dashboard empty-state framework that reduced time-to-value by 23% for new users.
- Influenced and shaped major product initiatives, including the Application Library and Overview Pages, contributing to a ~15% increase in monthly activation.
- Operationalized customer insight across the Cloudflare One product suite by establishing evergreen surveys, scaling product analytics usage, and synthesizing feedback from support trends and 12+ monthly customer conversations to influence roadmap and UX prioritization.
- Created the CLUE (Content Legibility for User Ease) Index, an internal UX quality system that operationalized writing standards through automated evaluation of clarity, consistency, and usability across product experiences.
- Developed AI-readiness evaluation tooling for technical documentation, improving retrieval quality, answer synthesis, and documentation reliability for LLM-driven experiences.
- Designed AI-assisted workflows for troubleshooting, explainability, and documentation validation, helping identify gaps between product behavior and customer-facing guidance at scale.

### DICK’S SPORTING GOODS

AUGUST 2017-JUNE 2022

#### Creative Copywriter

*(Previous: Associate Copywriter, Contract Copywriter)*

Led data-informed content and campaign initiatives across organic social, editorial, and customer experience channels for one of the largest sporting goods retailers in the U.S.

- Managed the “Pro Tips” blog during COVID-19 furloughs, growing monthly revenue from ~\$300K to \$2M.
- Initiated the “Best of Pro Tips” guide format, generating over \$11M in revenue.
- Built a predictive analytics model to inform content strategy and optimize organic social copy, increasing average engagement by 30%.
- Spearheaded a cross-functional initiative between Creative Marketing and Research Insights to develop more user-centered campaigns.
- Conducted usability research on marketing emails to improve storytelling, clarity, and customer journeys.

## EDUCATION

---

### NORTHWESTERN UNIVERSITY

2021

*M.S. Information Design and Strategy, Communicating with Data Specialization*

### OHIO STATE UNIVERSITY

2017

*B.A. Journalism, Minors: Media Production and Analysis, Pop Culture, and Political Science*
